-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Reissue Applications*

1. The original reissue oath/declaration filed with this application is again held to be defective (see 37 CFR 1.175 and MPEP § 1414) as it does not set forth a specific error being corrected in this reissue application. As pointed out in the last Office action, the subject matter of the originally filed claims in related reissue application SN 08/254,202 is now divided among that application and four divisional reissue applications, the present application being one of them. The same original declaration is not seen sufficient for each of these five applications. Each declaration must point out an (the) error being corrected in the reissue application in which it is filed.
2. Claims 1, 7 and 8 are again rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
3. Applicants have indicated that the necessary declarations will be submitted when the scope of the allowed subject matter in all five applications is finalized. With the allowance of new claim 27 in SN 08/254,202, such is now the situation.

***Allowable Subject Matter / Conclusion***

4. Upon correction of the defective declaration above, the claims of the present application will be allowable.
5. It is additionally noted that a certificate of correction is of record in the original patent. Such changes must be incorporated into the present application as original subject matter, i.e., no brackets or underlining.
6. The claims of the present reissue must contain the necessary brackets and underlining with respect to changes from the claims of the original patent.
6. This action is **not** made final.
